About Merick:

Merick is excited about his second language-immersion trip. He lives with his parents and has one brother and 2 sisters.

Primary interests:

Tennis, architecture, video game design, engineering, swimming, sailing, windsurfing, flying, model aircraft (plans & helicopters), motocross, and animals (dogs).

Secondary interests:

Golf, horse riding, country life, shopping, computers, and chess.

“First of all, I have to thank you for welcoming me in your family. My name is Merick, and I’m 16. At home I don’t have any pet, but I like them. My father is an engineer and my mother is a housewife. Later I would like to be an architect or an engineer in the video games because I am passionate. I have decided to go to the USA first to improve my English, and second to discover your country and your culture. My favorite activities are tennis, I played tennis since nine years, and nautical sports. I practice windsurfing, kite surfing, etc. Moreover, my father has got a sailing boat and we sail in the mediterranean sea. I’m very talkative nature, curious and helpful, you won’t regret to greet me! That’s why I have a lot of friends. I love making motocross but I’m not lucky to have one. More, with my father we fly the plane and see beautiful landscapes and we also create model aircraft or helicopter because it’s another passion. See you on summer. I’m very impatient to see you. Best wishes.”

**Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other’s core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.**
