“Dear host family. My name is Joséphine, I am 14, and I am looking forward to the best summer of my life in America. I live in the North of France, near Belgium. I am in an international class with 8 hours of English lessons a week. I am a good student, and I like studying. My favorite subjects are mathematics, English and history. I also play the tennis and practice dancing twice a week. Moreover, I have already practiced climbing, swimming, golf and I also have played the piano. In my spare time, I like sewing, cooking (mostly pastries), reading, and of course, I like going on my iPad or the family computer. My family, my friends and my teachers describe me as a bubbly person. Indeed, I am enthusiastic, sociable, cheerful and open-minded. Discovering the “American way of live” is an important project for me. I chose the US because I had already visit New York and Chicago. I expect to integrate in your family as one of your children. I expect to share your everyday life, and I hope you will appreciate my company. Thank you very much!”

Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other’s core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.
