Student Letter

My name is Aina and I would like to introduce myself a little more. I live in a village in the mountain with my parents, my brother and my two cats. We live near the sea and the city. School finishes at 2 p.m. and after lunch, I usually do some activities like English, German or basketball training. I've been playing basketball since I am 11 years old. History is one of my favorites subjects and I like visiting history museums or cities, like my granddad used to do.

Personally, I am kind of shy at the beginning but I get confidence quickly with people and then I open myself. Sometimes I easily fall asleep literally anywhere and especially in the car. My favorite foods are soups and pasta, but I like to eat healthily and I also eat a lot of fruit and vegetables. This healthy food helps me to be in shape and being regular. My favorite sweet is chocolate but I really really like waffles too much!

This is not the first time that I have an exchange experience. Since I am 12 years old I have stayed every summer in England, Ireland or Germany for a few weeks. Last year, I went to Germany and I stayed with a host family for nearly 4 months, it was great. I've been to the United States other times with my parents. We visited Florida, Puerto Rico, and New York. I would like to learn more about people, places, and cultures there. Thank you for reading this letter. I think it is very generous of you to want to have a foreign student at home during almost one year.
