Student Letter

I'm Carlota & I'm a 14 year old girl. A day in my life is probably similar to any teenagers day. On weekdays I go to school. In the afternoons I study & some days I have basketball practice. I also enjoy doing sport. I have been playing and competing basketball since I was 6 or 7. I also play tennis and golf a couple times every week. On weekends I go out with my friends or family.

I live with my parents and my sister. When I was 2 my parents and I moved to the USA, where my sister was born, and we lived there for 4 years. I like shopping with my mother, playing tennis and golf with my father and hanging out with my sister. I also like when we spend time the 4 of us together for example, on Saturday evenings we watch a film all together.

I want to go to the USA because it's an experience I think will improve my life. I know I am going to have an amazing time, learn a lot and have so much fun. From this experience I expect to mature, to enrich my personal life, to learn about the country the people and their habits, to live new adventures and to gain a new life-experience I can share with my freinds, family and future kids. In short, an exciting experience I hope I can build upon for the future.
