Student Letter

I am Caterina and I am your future daughter. I have dreamt this moment so far and now I am so touched that I can't find the right words to describe these feelings. I live with my parents and my older brother. My mother is a high school teacher and my father is an air traffic controller. I chose America to spend this experience because it is a country that I've always loved, and, unfortunately, I've only seen it in the movies. I think this is a big opportunity to improve my English and to improve myself, and my sense of self-reliance too.

I do not know if dancing [ballet] is considered a sport. But I think that it is much more physically demanding than many sports. I have been going to dance classes since I was 7. Every April my club participates in an international tournament, held in Burgos.

Our high school is on an educational exchange program with a high school in Denmark. Last October we hosted one student at home and next May I am flying to Denmark to stay at her home. I still do not know what I am going to study after my secondary education. I like practical things such as photography and interior design. I do not cook very often. Sometimes in summer, I help my father make cakes and pizzas.

With my "new family", so with you, I'm ready to talk about my culture and to explain everything I know about it, to be always helpful and friendly. I'm ready to change my routine too and to discover a new way of living to live this experience as best I can!
