PROGRAM

Arrival:

August 2021

Age on Arrival:

16

Duration:

Academic Year

Student ID:

AY21ES04-11

Allergies/Special Diet:

No / No

Religion:

Catholic

Student Letter

I am from a family of five. My mother has 7 sisters, I have a lot of cousins. My father's family lives far away from us, but we usually spend summer near them. I have two brothers. My oldest brother is in university studying Business. My youngest brother and I really get on well. We both go surfing whenever we go to the coast. We also play football in a team.

Apart from sports, we love travelling. I have already been to the US two times; Chicago and Miami. They were exciting trips and I am looking forward to knowing U.S.A. deeper. We have also visited many countries in Europe. My brothers and I attend German lessons and we used to spend a fortnight in a summer camp in the north of Germany. We are also scouts. We go on summer camp every year.

At home, I am used to do some small chores like tidying my room, taking the garbage out and laying the table. I love eating, especially pizza, pasta, tacos, nachos, and hamburgers. I am used to eating everything. I am not picky at all.

I would say I am a good student because I am always eager to learn. Last year I got an award for my effort in improving my studies. It was very encouraging and this year I have even got better grades. Spending a year abroad would help me improve my English level in writing and speaking. I feel that improving my communication will be helpful to make friends and to enter university because I would like to study Business like my parents and my brother. Also, I like meeting people from other cultures.
