Arrival:
August 2021

Age on Arrival:
17

Duration:
Academic Year

Student ID:
AY21TH05-12

Allergies/Special Diet:
No / No

Religion:
Buddhist

Student Letter

You can call me Cream. I come from Thailand. My family have 4 persons, there is my father, mother, younger sister and me. My mother likes cooking. She cook food very delicious that made me fat, LOL. My father likes to fix everything in the house when it is broken. He said if you can fix, do not buy a new one! And last one is my younger sister, she likes to sing a song and dance.

I am buddhist but I don't strict. I can participate with other religions because in primary school is christian school. In my free time I like to listen to music, sing, read, play with my sister, do housework and study. I like to play sports; but all of them I play for fun not for competition except swimming. I like to cook very much, my mum like to teach about cooking. My favourite subject is Math, Physic, Chemical, Biology and sport. I want to be a physician in the future because I want to help people who gets sick or injure. I like a yellow colour. I like to take a photo and do some vlog because it is evidence that I have been there.

To live in a different place, with a different family, school and new friends will be a great experience. I chose the USA because it's a country that I've always loved. So I want to discover it! With my new family, I'm ready to talk about my culture and to explain everything I know about it, to be always helpful, generous, have responsibilities, learn with attention and be friendly. I'm ready to discover a new way of living, for live this experience as best I can!
