## Student Letter

I am 15 [as of March 2020] and I live with my parents and my brother who is 13. For the last two years... It has been my dream to go to the USA. I am really happy now and I considered myself very fortunate to be able to do so. I imagine myself learning and becoming fluent in the language. I can see myself getting along with everyone in the family, with my classmates and my teachers at school. I am very friendly and sociable and I am so excited about my new life in the USA. I would like to know about the American traditions, activities and events, and learning about community activities where I can share my traditions, food, and culture.

In Spain one of the best things is the food. We sell many products all over the world like: wine, olive oil, olives, cheeses... I wonder if you have tried any of our Spanish products. We usually have five light meals during the day: breakfast, mid-morning snack, lunch, snack, and dinner. Dinner usually is at 9:00 to 10:00 pm.

Normally school is from 8.00 to 14:00 and some days is from 8:00 to 17:00. I really like my school, is a charter school. My academy results are good, I am good at biology but I will change into language arts next year. I am not sure about what college career I will pick. I love dancing so I would like to be able to be a cheerleader. I used to do rhythmic gymnastics when I was a kid. I really appreciate that you will open your doors and hearts to share with me such a wonderful year to come. I hope to hear from you soon.
