## Student Letter

I'm Santi. About myself I can tell you that I like sports a lot, I love basket, tennis, surf and soccer. I go to basket training 3 days a week and play matches on weekends with my team. I like travelling with my family specially when we go abroad. I also like meeting with friends, videogames, movies, and animals, specially dogs. My favorite subjects in school are Physics, Chemistry and Spanish. My favorite movies are Brave Heart, Gladiator and superhero films. Regarding music, I listen to all kind of music, oldies and very modern music.

I'm an easy-going person, talkative but I also like to listen, polite and friendly. I'm very cooperative and I like the team work more than individual work. I like the work well done and I like hard working people. My relationship with my parents is very good, we talk a lot and we laugh a lot. I like to learn from my sister as she knows good music. With my father I share the hobby of basket and the gym. My mother is very nice, funny and I get on very well with her. At home, I help sometimes with the supermarket purchase, and set up the table, etc.

Why do I want to go to the US? Because I want to improve my English language, learn from new culture, make a lot of new friends, discover new places and have the opportunity to see the US educational system. Also, I think that leaving the comfort zone is a good way to learn and grow. I want to have the experience of being a member of an American family as I appreciate a lot the American lifestyle.
