## Student Letter

Hello! I want to say thank you because you are giving me the chance to live and experience a new way of live in the USA. I'm very sociable, cheerful and responsible girl. I love spending time with my family and hanging out with friends. I'm bilingual, I speak both Spanish and French. Four years ago I moved with my family to live in the big city. Now I study in a French school I'm very happy there, but in winter I go to my house in the mountains every weekends because I love alpine skiing. I practice it since I was three years old. I do competition skiing and I have to travel a lot by differents European ski resorts and for differents resorts in Spain. During the week I dont go out because I have to study, and on weekends in winter I get up at seven in the morning I'm going to train. I think for this reason I am disciplined and independent person.

Another thing I really like is travelling, in summer I have more free time, with my parents we go to south of Spain, I love the beach and the sea I have a lot of friens there and we make a lot of plans we play tennis, paddle, swim and we sail. In August we go to the north of Spain, my mother is from there and we get together with the wole family. I like to surf there. About food I like everthing, I usually eat pasta, meat, fish, vegetables, fruit, etc. My favorite dish is the raclete. I am looking forward to seeing you!
