Student Letter

I'm 14 years old [as of Feb 2020] and from Spain. I'm excited to meet you. I'm a responsible person and I'm always smiling and laughing but at the same time, I'm sentimental and sensitive. I'm studious and I spend a couple of hours a day on my homework. In my free time, I like to go swimming.

I live in a beautiful island. Our island has beautiful beaches and delicious food. It also has a beautiful gothic style cathedral with one of the biggest rosette windows in the world. With a lot of history, it is one of the most important places in Spanish history. It has a lot of traditions, the most important tradition is the food like rice, soups, fried potatoes and vegetables (tumbet), snails, sobrassada, etc.

I live in my house with my father, my mother and my sister. In many situations I have to take care of my sister like take her to the pool or prepare her meal. In my house, I have to make some household chores like washing the dishes, set the table, make my bed, vacuuming, sometimes put the washing machine, etc. I promise to comply with all the rules that you give me, like cleaning my room, washing my clothes, being organized, being respectful, etc. I really find it very interesting and also learn different languages to be able to interact with anyone. I want to realize the dream of going to study in the US for a year in order to improve my English, enjoying every moment and learning a lot of American culture and living the American way of life.
