Student Letter

My name is Alejandra and I am 15 years old. I am a very friendly and easy going girl, I love spending time with my family and friends with who I make a lot of plans. I have a very loving relationship with my family, I have two grandmothers and many uncles and cousins that I visit many times. I also have many friends, as I do different activities, basketball, paddle tennis, oil painting. What I like the most is to go to the beach in summer, because my family and I love the sea and the sun.

My dream has always been to spend a year studying abroad in the United States. I am very excited and happy for this opportunity because it will be a great experience.

What motivates me the most about spending a year abroad is getting to know a new culture and its traditions, as well as its different celebrations, such as Halloween or Thanksgiving. I also want to improve my English level, since mastering the language will help me in the future. Plus, I want to meet new friends so that when I go back to Spain they can visit me and I can show them the culture of Spain and its different monuments and tourist places.

I am looking forward to meeting my host family, thank you for spending this time to know me.
