## Student Letter

Hi, I am Ariadna. I am a very active person who loves trying new sports and living new experiences. I usually do a lot of extracurricular activities, in addition to studying and hanging with friends. I have been acting since I was three and I love it. It is a thing in which I will like to get professionally. I am also an adventurous person, so I also love climbing and going to thematic and adventure parks. Before the pandemic, I used to make many of these things, but now it is much more difficult. I'm a friendly and open-minded person. I love explaining things, and I am very talkative, but I also love to listen to other people's thinkings. I like to know new people.

It has always been my dream to visit the US. I want to learn about your culture and traditions, make new friends, learn about its education and, obviously, to improve more my English. I think it will also help me to grow up and end up being more mature. I will contribute to your family by letting you know how we live in Spain, our society's ideas and thoughts, the languages we speak in Spain, the Spanish's lifestyle, the educational system, our typical dishes, Spanish traditions and celebrations. I am eager to meet you and I trust to give my best.
