## Student Letter

Hi, I'm Berta. I'm 15 years old. I really like going out with my friends, either watching a film in the cinema, having dinner in a restaurant or just being with them in a house talking about how our lives are going. However, I also love staying at home with my family. I think I'm an easy-going and extroverted person. I have taken horse riding classes for many years. I really like horses, but one of the other animals I love are dogs. I also love dancing. I've danced hip-hop and classic dance. Although I don't dance in a dance school, in my house I love dancing, that's the main reason why I'm always listening to music. I like all types of music but especially pop, either Spanish or English pop. I also enjoy watching football- I always watch the Super Bowl with my dad. I want to study engineering, my favorite school subjects are physics, chemistry, and mathematics.

During all my life I've wanted to visit the United States of America. It's my dream country, that's why I decided to spend a school year there. I really hope that you can show me your traditions and share with me your home and point of view. Thank you for taking the time to read such a long letter. I hope to see you soon.
