Student Letter

My name is Clara and I'm fifteen years old. I do activities like boxing or theatre (I have been doing theatre for 6 years, I like it a lot). I also have many hobbies like reading, watching movies with my family (my favorite genres are drama, action, and comedy), singing in the shower (although I sing extremely badly)... I like a lot hanging out with my best friends or traveling to new countries with my family. I'm an extroverted person and it's easy for me to make new friends or meet new people. I'm also sentimental and at times impatient (but pretty much I can control these things), I'm also an active person and I prefer going out, like hanging out with my friends or family than staying at home. I like a lot trying new things.

I want to go to the USA because of many things: I want to live a new experience in a different country with a different language and different cultures, I also want to go to improve my English level, meet new people, go to an American high school, change a little (because this island is a little boring) and for have fun and enjoy a lot the experience. I would like to have a good relationship with my host family too and I hope that I would have a beautiful time and enjoy it at the fullest, and have fun with my host family. Thank you for reading my letter and I hope you like it.
