## Student Letter

My name is Jamile, I am 16 years old and I am from Brazil, I am shy, but after a while shyness goes away, I am perceptive, empathetic and confident. I am an average student, but I am seriously working on it so I get better.

My passions are dance, music and fashion, I think that's because I'm not very good at expressing myself in words and with these three passions I can express myself in some way. But I'm still not sure which college I'm going to take. When my friends and I want to meet, we go to each other's house and have a barbecue and every now and then we go to a teen club that is here. My family and I love to travel. We always try to travel around Brazil and every year we go to the USA. And it's always a lot of fun!

What I expect from this exchange program is to accumulate knowledge. I want to see new things, meet new people, new places, new cultures, etc. I want to live the difference of cultures. Of course, staying fluent in English is something I will take care of during the program, but living American culture is my dream and it is what matters most to me. And another dream of mine is to see snow. I have never been so excited to do anything in my life and I will do everything possible and impossible for this period to be incredible for me and my host family.
