Student Letter

I am Javi and I am 15 years old. I am a very enthusiastic person and super funny. I always go around with a smile and if you are with me I assure you a few laughs. I always like to be doing things and I am one of those people who do not give up, when I have a goal I do not stop until I achieve it. I am also optimistic, I always believe that good things will happen.

I like to play soccer, and I have been doing it since I was 3 years old. I do training sessions 3 times per week and on the weekend I play an official match (I am the top scorer). I want to be an exchange student to have the experience of living in the United States, meeting new people, having a new family, living somewhere else, and learning more about USA traditions.

My favorite subject in school is P.E. because I like to practice sports. My hobbies are soccer, playing video games, listen to music, and watching soccer matches. I really like animals, especially house pets such as dogs, cats, tortoises...

In the future, I would like to be a sports journalist, especially a soccer one as it is something that I am passionate about. I would like to narrate a match that is something I do a lot when I watch a match. If I couldn't be a sports journalist I would like to create my own company in the sports world.
