## Student Letter

I love dancing, especially ballet. I am "studying" in an official dance school, and I will begin the 4th professional grade. In this school I don't only "study" ballet, I also "study" repertoire, contemporary, and music. I also like playing the piano and cello and also singing (but I don't sing very well), so as you can see I love music. I like to draw in my free time, usually at weekends.

I'm a very hard-working person, but I also like to have fun with my family and friends. I am a very loving person. In the beginning, I will be a little shy, but then you will realize that I'm very, very talkative. I'm a very open-minded person, so if you want to do something, count on me to help or go along. I like watching series, movies, and cooking. I can bake cakes, cookies, muffins...

I want to learn all and every single of your traditions and to be part of your family. In this exchange experience, I expect, not only to learn English and to know everything about you and your country, because also I want to enjoy every moment that I will be with you and remember this experience forever. I also hope for a loving family, that enjoys doing things, having fun, playing games...

See you soon,

Maria
