Student Letter

Hello, first I want to say thanks to the host families, the sponsors, and the organization for making possible this experience, I am delighted by the opportunity you are giving me. I am an easy-going person but sometimes I can be quite shy with people that I never met before, also I consider myself an active person, as I like all kinds of sports and outdoor activities, also I am a confident and a reliable person, I am usually very happy. I think I am a good student and I get normally good grades at school. I live on the outskirts of the city, in a peaceful place; I don't like to live in big cities, because of the pollution, how crowded they are and the noise. My family is so fun, and we enjoy anytime we are together. With my friends I like to play sports like basketball and soccer, also, we meet to go to a restaurant or to watch a movie, and in summer we go to the beach and there we like to paddle surf, dive, and other things. I have a lot of friends. I love doing sport, it's my biggest entertainment. My favorite sport is basketball.

I want to be an exchange student to feel how it is like living in another place far away from my house, the customs, the language, the place, and many more things, I want to learn about the culture, habits, and language mainly, and also I would like to show mine to my host family and American friends. I want to contribute to every task my family requests me to do, such as household chores and taking care of kids or pets.
