Student Letter

Hi, my name is Oleg. I come from Kazakhstan. In the town in which I live you can count about 100 representatives of different nationalities, carriers of different cultures and religions. When I was 6 years old, I started boxing for the first time, later I turned to swimming and now I am weightlifting and quite good at it. I always help my parents, and I have certain responsibilities at home that I regularly perform, one of which, of course, is to clean my room. I always have good grades at school, and by the way, I often represent our school in various competitions, and recently I participated in competitions in the English language. As for my hobbies, I'm a bookworm, I love novels, science fiction, adventure stories. In general, I read a lot and I like it.

I want to spend an academic year in America in order to understand American culture from within and so that the people who surround me there will understand the culture of Kazakhstan through me. Of course, I also want to improve my level of English and meet new people and I believe that it will be an amazing experience. I would also like to attend extracurricular activities during my studies. I have never played baseball or knew how to play and I would love to learn to play this famous American sport. It would also be wonderful to participate in other interesting activities. I also heard about theater classes, I can't say that I will definitely like them, but I would really like to try it. See you soon!
