## Student Letter

I'm Pelayo. I live in an island in Spain with a Mediterranean climate. In my family we are four people; my mother, father, and little brother. Sometimes we fight but we have good times playing board games or doing other things together. I have a good relationship with my parents. I think my grandfather is the most important person for me. He always wants me to be happy. He is a very wise and clever person.

I play indoor soccer in a federated team and I've been the captain of my team every year, chosen by my teammates. I like to read manga too. Manga is a kind of Japanese book and you have to read it from left to right. At first, it is a little strange but you get used to it. I especially like Dragon Ball, Naruto, and Pokemon. I like Pokemon a lot! I have played some pokemon games and I like so much. At home, I do housework like making my bed, cleaning my room, helping to cook, throwing the trash into recycling. I'm very tidy, I like everything in its place. I'm a little shy but I like to make friends. I'm friendly and funny. If there is a problem I always think about it a lot and try to find the best solution.

I hope the family takes me as one more of the family. I would like to participate in all activities and have a good relationship with them. For me, the most important aspects of this experience are having a good relationship with the family, getting to know a new lifestyle and learning English. I hope we enjoy and learn a lot from the experience. See you soon.
