Student Letter

My name is Sameen. I live with my lovely parents and one younger brother. My family members have excellent ties with each other. We love to sit together and spend time together. We watch TV or go outside for dinner. We also like to travel to different places on weekends. My responsibilities at home includes cleaning my room, ironing my clothes, polishing my shoes and helping my mother in the kitchen. I love learning new things and new skills. I want to improve myself everyday. I love book reading and newspaper reading.

I am very social, I like to meet new friends from different places as it helps me to exchange information about different cultures. traditions, and places. I have a very big social circle. I have so many friends. Even in my school I have friendly ties with every person I interact with. I like to take part in co-curricular and extra curricular activities. I love sports. I play many games like basketball, football, netball, etc. I am very friendly, honest, and innovative. I am very excited to meet you people and anxiously waiting for that time. You will find me very cooperative and friendly. I have many goals in my life and I am very confident that I will be able to achieve all the goals in my life. I believe that a person is not only born for gaining something but to give something. I am very hopeful that I will have a wonderful time with you people. Take care, bye!
