Student Letter

Hello, I am Adrian and I am 15 years old. I am a very fun boy and I am very sociable. One of my weaknesses is that sometimes I am a little bit lazy. One of my strengths is that I am open-minded and I think I can adapt myself to new and different situations.

I want to be an exchange student because I want to improve more my English and have a very nice experience, also I want to make new friends and know more about the American culture because I love the USA. I have been there on holiday 3 times. I would be very happy to be able to stay with you and maybe share with you some of my Spanish culture too. I would really love it if you also had kids my age since I am an only child and I think it would be great to have some American brother or sister. Then they can also visit me sometime in the future.

I love to hang out with my friends and go mountain biking with them. My favourite subjects are Languages, Technology, Geography, and Sports. I would like to study tourism someday. I am very excited about this coming year with you and I hope to meet you very soon and that we have a great time together !

Bye Bye and see you soon!
