Family: mom, Dad (Speleologist), sister (20)

PROGRAM

Arrival:
August 2021

Age on Arrival:
18

Duration:
Academic Year

Student ID:
DS21ME01-12

Allergies/Special Diet:
No / No

Religion:
Orthodox

Student Letter

My name is Blazo. Me and my family love to do a lot of things together like camping, caving, hiking, cycling and many more. We are very adventurous family. At home we are all given different responsibilities I have to clean my room, take out the trash walk our dog Frodo and mow the grass. I love hiking, but I also love to program on my computer, play video games, do some math problems and I started playing the guitar. I have 2 best friends they are one year older than me but we have a lot of in common. We started playing a video game together and after that we started hanging out and then we became best friends. We love to talk together about different topics like history or games or music and we always have a lot of fun. My town is very small with a little amount of people but I really like that. The town is very multicultural and everyone know each other. I always liked math, but teachers were always grumpy and I really didn't like that so I wanted to become a cool math teacher who would not only teach you math but also try to communicate and understand everyone that has a problem. I am a very friendly person, I love animals and I am a volunteer in my town, I work with kids with special needs. In America I want to continue everything that I am doing here, I want to find out more about your culture, your people, your language and of course I want to have a great time with everyone that I meet.

Would you like to host this student?

Call (919) 285-2693 or email info@borderlessfriends.org

Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other's core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.
