## Student Letter

My name is Dani, I'm 16 years old, I was born in a beautiful island of Spain. I'm a quiet boy, at first is difficult for me open up with someone, but when I meet the person I relate very easy. I like to be competitive and I work hard when I have a goal, especially physical, for example, right now my goal is to get the minimum national records in swimming. When summer comes I like to go to the beach with my friends, the rest of the year we go to shopping centers, to watch movies at the cinema, to eat, etc. Most of my friends are swimmers like me, so we see each other every day in training. I love swimming, it's the sport that I practice since I was 6 years old and now I do it at a competitive level, I dedicate from two to three hours a day, six days a week to my workouts. Apart from swimming I also go to the gym or train at home. I would be especially excited if the school I will go to has a swimming team to continue swimming since it is important for me to stay physically fit. I dream of being a firefighter someday. I want to do this student exchange to meet new places and people, to gain maturity, to live new experiences, and especially to improve my English level. I think I could show you what our lifestyle and traditions are like in my country. I will do my best to make this experience nice for you all. In my luggage, there is no lack of my swimming equipment and a great desire to learn.
