Student Letter

My name is Ethuma Faith. I am 16 years old. I am a hardworking girl and never give in to failure. I am an ambitious and creative person. I love to read books especially novels, write stories of my own, dance, play puzzle games, and play with my phone. I also like outdoor activities such as spelling bees, debate, essay competitions and drama plays. I also enjoy volunteering at children's centres, orphanages and old age homes. I remember as a child, I would always say that I want to be an actress, a writer and a blogger. But now, I want to be a psychologist so I can have deeper understanding of the human mental and emotional being. I also aspire to be an activist to help others most especially the less privileged and the deprived. And in this way I can give back to society and help create an impact on others lives.

I am an active member of the teens care movement and also a member of the radio team, drama club and debate club in and outside of school. I like to sing and vibe alongside music mostly Afrojams. I like to read and write so I would love to be a part of a library. I hope that through this exchange program I can have the platform to pave my way to success and fulfill the vision I have in mind and also to make new connections with people of different kinds and to also make happy and warm memories with you and your family.
