Student Letter

I'm Fatima, I am 14 years old and I live with my parents and siblings in Spain. I'm a girl who likes to be always happy and in a good mood. Despite being a very cheerful girl I consider myself a very optimistic, independent, fun, generous, active, friendly and sociable girl. I like to meet new people, meet new cultures different from my country and learn from them. I love spending time with my family and friends and spending a good time with them and above all lead a healthy and healthy life, practicing some sport, such as volley tennis, swimming. I like fashion, I have always loved shopping, going out with my friends and taking the opportunity to take a few pictures, to get dressed up.

I think that being an exchange student is the best thing that can happen to me, it only has advantages, I will be able to get to know a new culture, with new people who will be able to teach me new things. I have the great opportunity to have the greatest experience of my life, which is the one I've always dreamed of since I was a child. I'll be able to learn English, speak a new language, and study at a school with a different system. I'm really grateful to you for giving me this great opportunity.
