Student Letter

I am Fernando, but everybody call me Fer. I am 14 years old and I come from Spain. I am a shy person sometimes, but when I gain confidence I am very open, I am very curious and I always like to learn new things. I like to live new experiences and I want to go to the United States to have a new experience and learn English. I want to go on an exchange mainly to improve my English and also to know a different culture. In the future it will help me find new opportunities. I will try to adapt well to the family and become a member of it.

I like to do many things with my friends like go cycling, play video games, go to eat at a restaurant, play soccer with them and any sport and any activity in general. I really like going out with my friends, I have a great time. Every weekend I compete in soccer with my team, my position is right back and I really like to play this sport. It is very entertaining to play and also to watch it. On weekends I usually go out with my friends and family to do an activity. In general, I prefer to do outside activities than stay at home. When I finish high school I want to study Engineering at University. I would like to build bridges, roads, and buildings.

This is me, I wanted to show you everything that I am and what my life is. I really want to meet you and go to the United States, thank you for reading my letter and I hope to see you soon.
