Student Letter

My name is Gabriela; My friends describe me as an active, funny, cheerful, sportive, and open-minded person. I am an optimistic person and I'm always making the most out of every situation. I like sports. I play baseball, skiing, roller and ice skating and paddle tennis. I like children and I am thinking about the possibility of studying to become a teacher in the future. And I like animals even though we don't have any at home.

Probably you will ask yourself why I want to be an exchange student. I think it's a great opportunity to meet new people, getting to know the "American way of life ", develop myself living with another family and improve my English and make new experiences. It's not that I don't like my life here in Spain, in contrary; I will miss my family and my friends for sure. But I know that the experiences of one year with you will be more than worth leaving my normal home. I am so excited about the stay and I hope I 'll be able to show you something about the Spanish way of life, our culture and nice places we have in the country. I am looking forward to getting to know you and I am so grateful that you consider hosting me for one year. So, I hope I will hear from you and even more to be a part of your family.
