Student Letter

My name is Lorenzo and I am 17 years old. I love other cultures and new experiences amaze me! I feel like this experience could bring to me not only a cultural benefit, but also a lot of emotions and lovely situations that I would carry in my heart forever. I heard a lot of stories about the Exchange year and I dream of me doing something so special like this. I describe myself as a really outgoing person, I love to meet new people and relate with different cultures. I'm a very calm person, collaborative, dynamic, determined, respectful and something I like about my personality is that I'm not shy at all. I have a lot of Hobbies, but the one I like more is cooking. I'm very good at cooking a lot of dishes (at least this is what tasters say ☺).

I enjoy doing sport or going out for a ride with my bike. I practice judo since I was 5 years old so now, after almost 11 years, I am preparing myself for the blackbelt exam. I love judo because it is not only a sport but also a very deep philosophy of life. Another of my passions is the fashion world. I really like fashion, and everything around it, in a particular way sneakers that I've been collecting since 3 years ago. I love traveling in general and that's why me and my family traveled a lot. We visited a lot of places but the country I've enjoyed the most is America. I can't describe how many emotions I feel, it's really hard to explain with words what I'm feeling: I'm sure that this could be an amazing experience.
