PROGRAM

Arrival:
August 2021

Age on Arrival:
15

Duration:
Academic Year

Student ID:
AY21FR12-11

Allergies/Special Diet:
No / No

Religion:
None

Student Letter

I introduce myself, my name is Maëlle,, I am 15 years old and I live in the South West of France. My parents are aerospace engineers. I adore space, astronomy, and especially everything related to astronauts. I have a lot of hobbies like baking, scuba diving, traveling, reading (I love detective novels and science fiction), watching movies and series, music, and playing piano! I like going to the cinema, discovering things, shopping, going for a walk, going out with my friends, playing sports: I did French boxing (2 years), badminton (4 years), rollerblading (one year) swimming (5 years), scuba diving (3 years) and climbing (1 year).

In class, I'm very interested in Physics , Chemistry, earth and life sciences, English and Maths because it's technical and I'm going to need it a lot later. On the other hand, I am less attracted to history-geography and German. Later, I want to be an astronaut or a profiler. I intend to present myself in 10 years for ESA and apply to become an astronaut. If I don't succeed, I will choose the path of criminology and why not work in the FBI or police of the Criminal Brigade (BC) in France.

If I want to participate in this project it is because I want to improve my English because I will need it a lot later and I also want to discover the culture, the country, as well as the différences with France. I am grateful for this opportunity to live with your family!

Borderless Friends Forever

Would you like to host this student?

Call (919) 285-2693 or email info@borderlessfriends.org

Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other's core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.
