Student Letter

I am an adventurous girl who has been living in a small town for 15 years. Unlike big cities, it is peaceful and noiseless. My city lacks traffic lights because traffic lights are rare here. I take part in many clubs such as english, several volunteering clubs, national rural education club and a local students' self-running club. After finishing my activities I usually go to the local library to read. On average I read about one or two books a week. I read mostly historical novels and science fiction because I enjoy expanding my knowledge. I love talking about the books I've read when I hang out with my friends because I really enjoy sharing what I've learned. I am really fond of listening to music. I would undoubtedly say Taylor Swift is my most favorite singer. Absolutely, her songs are filled with beautiful lyrics, magical vocals and deep meaningful message so that younger listeners like me should learn lessons through life. I improved my English with every article I read about her to understand the meaning behind her lyrics.

Besides improving my English, I want to experience American culture as a high school student. Also I want to share my great culture that I know a lot. By exchanging our cultures, we can prevent people from having ignorant thoughts. I believe the flex program is the perfect opportunity for me to grow as a person by experiencing American culture.
