Student Letter

My name is Sofia, I am 15 years old and I'm from Spain. I'm so grateful to be able to fulfill this dream thanks to you. I consider myself a cheerful person, also a neat, truthful, curious, perfectionist and courageous person. I'm a very good student and I consider myself a very intelligent and creative person; I love crafts, to design things and to paint. I have been a gymnast for 8 years. Because of the pandemic and other problems I'm not practicing this sport, but in the United States I would like to join in a club. I like hanging out with my friends or family and watching movies. I also enjoy listening to music and I like different types I also love to cook.

I'm so excited about living this experience because being in the United States has always been a dream of mine, and I'm so grateful to finally fulfill it. I think that this is a unique opportunity that will improve my life in many ways, and that will be an unforgettable experience that would teach me a lot, not only in my knowledge of English, but in many other things such as my maturity, independence, sociability... I hope to return home being a better person, having learned a lot, and having met incredible people who I will remember along my life. I would like to thank you for giving me a family and a home and for letting me share with you this very important year in my life.
