Student Letter

My name is Sulaiman. I am a very kind, honest, active and versatile person. I love reading literature, mathematics and especially football, but I will not be a football player, for me it's like a hobby- playing football with my school team and friends. I have very big ambitions and desire to become a big and useful person for society. In the future, I see myself as a great reformer and president of my country. I really want to get a new culture and new friends, because my hobby is studying history, literature and playing football. I think America will be a new experience for me and a very good experience. At school I am an excellent student, a class teacher, a football player and a good friend of all my classmates. I am a person who knows my culture and history very well. I can tell you many stories about all the countries of the former USSR, because I know a lot about them. I will show you my culture and ancient history. I am a very friendly, responsible, cheerful person with a big heart, ready to become a full-fledged member of your family, ready to become a good brother and son. I want to fly to America, because since childhood I want to travel, since childhood I wondered what it is like to be an American? What is it like to live with an American family? Now I dream of visiting America. And I can say with confidence that I can fulfill the mission of cultural exchange.
