Student Letter

My name is Titouan. I really want to live for a year like an American to discover a new culture and show you mine. I love skiing. I started when I was little but I stopped it because I prefer snowboarding. I like to cycle and see friends or go for walks. I also did kitesurfing last summer, it's like surfing but with a big kite that allows you to pull yourself. I also organized a camping vacation with a friend without my parents last summer. I love discovering new sports, new activities and that's why I have done many sports. With my father I like to garden, plant trees and mow the lawn. With my mother or alone I like to cook new dishes or dishes that I know but which are always good. With my family sometimes we play board games, I like it. I am a rather simple, friendly, social and ambitious boy and who shall help gladly in the family in its work at the house. I shall be happy to have in my host family, young people of my age or younger. I look forward to know the culture of your country, to live with your rhythm.

Finally I love your country very much, and I will be able to travel there. During this year I hope to learn many things on the english language and on the Americans, as your way of living, the American high school, to know young people of my age, to know more about your culture.
