Student Letter

Dear American Family,

First, let me introduce myself. My name is Abdullah Al Radhi and I'm 16 years old and I am from Saudi Arabia.

My main reason why do I want to come to the US and study aboard; is to improve my English skills in all ways possible, to explore and discover new things in life. This will be a really good chance to do that and show what I am capable of. As for the things I would do when I come to the US, I would probably go out once or twice a week to discover the world around me and to get to know more people and have more connections to the world. What activities will I do you when I come might be asked? I would say that depends on where will be. For example, if I'm on the mountains side of the US, I'm gonna be going up the mountains all day long just to admire the beautiful nature. However, if I'm by the coast side of the US, I'll go to the beach and have fun with friends or to a water park.

Finally, what I expect to gain for this experience is to improve my English skills in every way possible and to get more connections to the world.
