Student Letter

I'm Carolina, I'm a very calm and smiling girl. I love spending time with my friends whether it's shopping, chatting, watching a movie, etc. I also like to be with my family and watch netflix together or go out to eat together. My favorite movies are the scary ones. One of the things I love to do is make people laugh, I love to play jokes and make others enjoy it. I also love dogs and the company they make.

I am really excited to go to the United States, I have been told so much about that place that I imagine it in a thousand different ways. I'm looking forward to learning about their culture, their activities, their food, their people, their places, etc. My older brother also went there a few years ago as an exchange student and he really liked the experience, I hope mine will be the same.

I would love to make good and lasting friendships and not lose contact when I return. I love to meet new people and have them tell me their anecdotes and opinions and I will tell mine. When I am there I would love to teach everyone about Spanish customs and food, Spanish food is great and very varied, I could make some of the most typical dishes there. One of the things that catch my attention is the food and the restaurants, I will try all of them. I hope to learn a lot of English in the United States and have an unforgettable experience.
