Student Letter

My name is Claudia, and the first thing I want to say is that I am very grateful for this opportunity to travel to another country with another family. I am a pretty calm person. I am very responsible. Another thing that people told a lot is that I am quite mature despite my age. Another thing I love is making the people around me laugh, especially my group of friends, always when I meet with them we have a great time and laugh a lot. I do a lot of sports, especially basketball, I do it 3 times a week and on weekends I play against other teams. On days when I don't have basketball I usually do stationary cycling except if I have an exam the next day. I also do fitness, but I practice it in smaller quantities, but it's something I really enjoy. I also practice bike, ski and swim. Another thing I really enjoy is drawing. I also like to watch horror movies.

Since I was 12 years old I have been very interested in the theme of exchanges and I really wanted to do one in the US.. The culture, traditions, food, life there, called my attention, and now I'm finally going to make my dream of going there and live like the people there. I'm very excited to meet my host family and ask them a lot of things about them and about there, and also talk to them about Spain if they want to. Another thing that I really want to do is visit the place where I am going to live and discover the whole place, and try all the food there. I look forward to meeting you!
