Student Letter

Hello! My name is Alice, I'm a 16 year old girl who has always lived in France. I'm in my 6th year of High School and my specialist subjects are history, geography, geopolitics, political science, economic and social science and art. Contrary to my family, I am more artistic and would like to have a career in this field. I really enjoy drawing and sewing but I also have a musical ear and have played the piano since a very young age. In my spare time I love to sing. I play tennis for fun and have done so for many years. I love spending time with friends and family, going on days out, spending evening with friends and playing board games. I also like spending time by myself when I like to draw to relax. I am a smiley person but can be shy at times. I love to travel and see new places. I have been lucky enough to travel to many places around Europe. We have also been lucky enough to visit the american West Coast with friends in 2019, going to Los Angeles, Seattle, San Francisco and Las Vegas. I particularly enjoyed this trip because since a young age it has always been my dream to go there. The only negative aspect of that trip was that I did not get the opportunity to meet the american locals. I would therefore love to learn their language and discover their way of life, their culture and their traditions. Thank you for reading my letter, I can't wait to meet you!
