Student Letter

My name is Aziza, but my family calls me "Azek" or "A.Z" and I am a 15-years-old Kazakh student with a unique and open mind. I have many interests. I like to listen to songs everywhere, so headphones are important for me!. I really like pop music of Asian countries like South Korea, China and Japan. Even if I don't know their language, I always try to understand the lyrics of songs by translating them. I still believe, if I can choose language classes at school, I will take more than one, cuz i am in love with many of them. Drawing is also one of my big hobbies. It just feels like I find connection with the universe. During that time I focused on only drawing, making my own world with only one pencil... My friends are very important to me, I love them very much. I am excited to make new friends in the United States. My career goal is to become a psychologist; this has been my dream since I was in 8th grade. Sometimes people really feel bad mentally and I want to see that I can help others to overcome everything together, making me a good person for this world. I hope to study at a US university after graduation from my school. Thank you for reading this letter, making the Kazakh kid who is really excited to be part of your family smile. I am gonna gain and share the energy of happiness with you. Thank you for choosing me. I love y'all.
