Student Letter

My name is Inés, I am 15. My friends describe me as an open-minded, funny, spontaneous, and enthusiastic person. Laughing is one of my favorite things to do, I am an optimistic person and I am always making the most out of every situation. I attend the 9th grade of a big school close to the place where I live. My favorite subjects in school are biology, chemistry, and physics. Besides English, I learn French at school. I'm a class representative and I love how school gives me the chance to spend time with my friends during the breaks and at lunch. I think being an exchange student is a great opportunity to meet new people, get to know the "American way of life", improve my English and make new experiences. I will miss my life in Spain but I know it would be worth it. I am so excited to live this whole adventure and I hope I will be able to show you something about the Spanish way of life soon. As I love cooking I could also cook Spanish meals for you. I am looking forward to get to know all of you and I am so thankful that you consider hosting me for one year.
