Student Letter

My name is Louise, I am 16 years old. I am especially interested in the cinema which is my hobby even out of school. I am really admiring of the American Cinema, I am breathtaking behind the Stanley Kubrick's work or the David Lynch one. I am enrolled in the cinema club of my city where I watch classical movies each week. Separately of the cinema I practice yoga, it is a discipline which relax me and I like the spiritual aspect in this discipline. I also practice other sport since more years, it is the classical dance. I am in love with this sport for all the artistic part: it wakes the creativity. I enjoy reading, I can spend all my afternoons reading books. I usually read American literature. If I wish depart during one year it is for being bilingual and discover a system completely different of the one I know in France. I hope to learn values of America, open my mind and outside of my every day's life delight me. I would love exchange with you our personal world's vision. I personally have feminist and anti-racist worthies. I am an open minded and sociable girl. I can also adapt myself in every situations. I adore going outside of my comfort zone and it is why I want to journey in U.S.A. This trip is really tempting me because I know U.S.A is a vast country with an awesome diversity of thinking ways and brotherhood spirit. So, I wish I could create some strong friendships.
