Student Letter

My name is Natacha and I'm 16, almost 17. I love simple things. Just spend time with my friends, like take our bike to go on the river side of my city, listen to some music and eat ice cream. I like to party or also have some long discussion with them. I like to walk alone and listen to some music. It helps me to deal with everything I feel and think. Another thing important for me is to defend my opinion, I like to manifest and try to explain my ideas. I love music, I play violin, piano, but, most of all, I sing a lot. I also like to cook and to try some new recipes. I like to babysit children. I'm not really into sport, but I like to ski, to swim and to play soccer. I read and watch a lot of series and I love to discover new one. My friends told me that I was pretty easy going (apart the morning!) and passionate. I love to travel and to know more about the other cultures probably because I'm very curious. I like to be helpful and I want to help at home. I can do the food shopping, babysit if there are younger children, do the laundry or the dishes, set the table,... I'm independent and being independent is very important to me. I want to be an exchange student because I want to be bilingual and discover another culture. I want to meet some new people, I need some changes. Thank you for reading my letter and considering me, I can't wait to meet you!
