Student Letter

A dream comes true, I'm going to experience a High School year in the United States, I can't believe it. I'm Nela, and I'm 15 years old, I've wanted to do this for as long as I can remember. I'm excited to experience this amazing culture; the people, the food, the school, the holidays like Thanksgiving, Christmas, Halloween... Another main point that's very important to me is the language. English is one of my favorite languages and I would love to improve it. Since we live in such an international world, I think English is very important and it's going to open many doors for my future.

Family, one of the most important things in my life. Another important thing for me is my friends. I love spending time with them. We like to play volleyball, soccer or other fun sports. My passion is volleyball and I'm playing in the school volleyball team, I'm central. We are in the first league. Hopefully, I can continue playing in the USA. Other hobbies of mine are editing videos, music, playing the ukelele, drawing and painting, fashion, and everything that has to do with sports, such as watersports like surfing, waterskiing, skiing, running, gymnastics... I'm so excited to get to know you, the place I'm going to live, the people who I'm going to meet and become friends with, and my new school. Every day I'm thinking about all these things, about what is going to happen and what I'm going to experience.
