PROGRAM

Arrival:

August 2021

Age on Arrival:

16

Duration:

Academic Year

Student ID:

AY21KR03-10

Allergies/Special Diet:

None / No

Religion:

Christianity

Student Letter

Let me start by introducing myself. My name is Seungju and I am 15 years old. I live with my father, mother and two brothers. I like to eat noodles, fried potato, hamburger and spicy foods. I like to play sports. I like to play badminton, basketball and most sports with balls.

I like the sky. I like looking at the clean sky with clouds and night sky with stars. I also like to take pictures of the sky and objects. Now I live in an apartment, therefore I cannot see astral bodies well from my home. I heard there are not many buildings in the residential area in the U.S. so I am dreaming to see the clear night sky with stars in the U.S.

My favorite subject is math, so I would like to become a math teacher to help students to learn the joy of learning math. I like to experience U.S. education so I can use this experience when I become a teacher to help students lessen the stress of studying. Another reason for going to the U.S. is to improve my English so I can speak like a native someday. I also like to widen my view of other cultures. I have never been to any foreign country, so I do not know what people in other cultures like. It is well known that being in culture is the best way of learning language.

Borderless Friends Forever

Would you like to host this student?

Call (919) 285-2693 or email info@borderlessfriends.org

Borderless Friends Forever promotes world peace through cultivating opportunities for cultural and educational exchanges. These exchanges allow people to learn more about each other's core values. We bring the international traveler and the host family together to create meaningful relationships through which we celebrate our differences and similarities.
