## Student Letter

Hi! I am Somon from Tajikistan. It was my dream to write this letter to say how I am happy to become a part of your family but now I am so touched that I can't describe my feelings with pen and paper. I like your country because there everybody can reach their dreams and I want this too. I am very interested about volunteering at school, for example helping students with their English or Russian homeworks and other activities. And sometimes I read story books and also I watch Tv, films or any series. And sometimes I go to the park with my friends. Because I love walking in the city and parks. My favorite subjects are foreign languages and law. In our school we learn Russian and English language and I want to learn Spanish and French too. When I come to the USA I will learn about human's rights too. Because I want to be a lawyer or an ambassador in the future. I'm so interested in your culture and holidays and I love your holidays, for example New York Halloween, Thanksgiving and others. I want to be a lawyer or an ambassador in the future because I want to protect the people that they don't know about their rights and laws. And also I want to show to other countries how my country has such an old history and about my culture and holidays too. And I want to write a grant after this Flex program for school students if I find the chance. Thank you for this experience, I can't wait to meet you!
