## Student Letter

My name is Teodor, I was born in the Czech Republic, I am 18 years old. With my family we do different activities. I enjoy going cycling with them, when it's a nice weather we go for a whole day for cycling. In winter we go together cross country skiing or downhill skiing. I would like to improve my English in America. After time I will spend in the USA I will become more confident using English. When I come back from the USA, I would like to start running my own company. I would like to build my own house and buy a new car. I am excited about going to the USA very much. I want to get to know American culture, meet great American people and learn new things. I like watching action American films and sometimes I also watch American politics and films about nature which is there. I like visiting historical places and nature, walking in forests and watching forest animals and birds. I like going to gym and practicing yoga for concentration on myself. If I had to talk about myself, I would say that I am a good person, I like to help other people. I am of a calm and compassionate nature. I like to have fun and laugh. I am hard working when I want to achieve something. I don't give up easily. I am grateful for the opportunity that I can stay in your family and believe that me and my new family, we will spend great time together and we will have beautiful memories. I am excited and looking forward to meeting you!
