## Student Letter

My name is Alexia, I am 15 years old. This 10 month stay abroad is a great privilege for me, I am grateful for the chance to live 10 months in the United States. I'm doing this project mainly to be fluent in English and to be bilingual, but also to get out of my comfort zone and meet new people. For the future it is important for me to have a perfect command of English to be able to travel but also work anywhere in the world. This experience will surely change me and make me more mature. The fact that I will be living in a place that I don't know will be a real advantage for me in the future, because I will be able to adapt easily and also travel anywhere because English is the second most spoken language.

I love to meet new people and discover new cultures. I've been going to summer camp since I was 8 years old so I think I'm used to discovering people I don't know. This experience will bring me much more than I think and I am really looking forward to what the future of this project will bring me. These 10 months are going to be extraordinary, I'm sure I'll leave with a lot of good memories, I'm going to live what many people would dream of doing and I'm aware of how lucky I am to be able to do this experience. I hope to live this experience to the fullest in your company.
