## Student Letter

My name is Dai-Phong, I am going on my 16 and I live in France. I 'm quite curious and very open-minded. I hope that everything will be great. I like cooking, eating good food, watching movies and series, doing sport and many other things. But my favourite occupation is football : play, watch, speak and everything about this topic. If it's possible, I look forward to practice this sport in the United States. I travelled a lot in many countries with all my family. I discovered new cultures, new foods and new persons. I also learned new activities like diving or climbing. I have been playing the violin for almost 8 years.

It's a veritable opportunity to do that. I will learn English faster if I'm with real Americans all the time. I will be interacting with local people so it's gonna improve my pronunciation and my vocabulary. After this great experience, I hope I will speak English fluently. It's one of my personal goals. I will be a true asset for the work world and for travel. I'm grateful you took your time reading my letter, I look forward to hearing from you!
