## Student Letter

Hello, I am Heewon. The word which explains me best is 'smile'. Because I think smiling gives me strength to overcome everything bad, I smile not only when there are good things but also when there are bad things. My hobbies are reading novels and webtoons. I mainly read fantasy novels and webtoons, which I like most is the Omniscient Reader. The reason I go to the United States is because I want to learn other cultures and English. I have never lived abroad except for a short trip. So, there were not so many opportunities to encounter foreign cultures. And the reason I would like to go especially to the United States among many countries is that the United States is a country where various cultures coexist. In addition, in these days when globalization is taking place, the need for English, the international official language, is so high that it does not need to be mentioned in particular. So I want to go to the US where English is the first language to learn English more.

Finally, thank you so much for deciding to be the host. And although there may be difficulties because of the linguistic or cultural differences, I hope to overcome them and build a good relationship with you. I can't wait to meet you soon.
